Owner Responsibility

Before you request repair to the product under this Warranty please check the following to save you unnecessary expense. You will have to pay for service calls in relation to the product and any repair made to the product that is not related to a manufacturing defect in the product.

Power: Your air conditioning system should be connected to an exclusive circuit. If your air conditioner will not operate, please check that the circuit breaker or Residual Current Device (RCD) has not been tripped. These will be located in your main switchboard. If either of these devices trips repeatedly, please call your installer to investigate.

User Controls: Ensure that all user controls are correctly set.

Installation: Confirm that the product is correctly installed. If necessary consult with the installer.

Obstructions: The Warranty does not cover problems caused by dirty air filters, air flow obstructions in the indoor or outdoor section of the product, leaves, dust, or foreign objects blocking vents and coils. These are important points to be kept under observation and should be checked regularly. Blocked drainage pipes can cause condensate water to leak out of the product instead of draining from it. Check in humid weather. Regular checks for and clearance of obstructions are the owner's responsibility.

Relocation: This Warranty does not cover relocation or re-installation and setup of the product.

Batteries: This Warranty does not apply if the product is damaged by the use of exhausted, leaking or used batteries or fails to function correctly as a result of the use of such batteries.

In this Warranty, the words "Accredited Repairer" mean an accredited service centre or a repair agent of Mitsubishi Electric Australia or a repair agent of an Authorised Retailer, in each case appointed to service or repair Mitsubishi Electric Australia air conditioning products. (Contact the Mitsubishi Electric Australia office in your State for details of Authorised Retailers and Accredited Repairers).

1. This Warranty:

- a) covers the system constituted by both the indoor and outdoor unit (together referred to as the "**product**") described above against manufacturing defects in the product for a period of **sixty (60) months/5 years** from the date the original system is purchased by the original owner.

- i) the product is re-installed during the period of the Warranty at any location other than the original location.

- a) the Authorised Retailer or Accredited Repairer of Mitsubishi Electric Australia should be contacted within thirty (30) days of the owner becoming aware of the manufacturing defect in the product.
